janellaa.lariba07@gmail.com

Skills

- **Microsoft Office:** Word (document creation, formatting, templates), Excel (data analysis, pivot tables) and Powerpoint presentation
- Proficient in **AutoCAD** and **SolidWorks**
- Has basic understanding of **C++**, **C#**, and **assembly code** and databases like **MySQL**.
- Knowledgeable in **circuit design** and **Arduino coding principles**.
- Proficient in Omron Zen PLCs & industrial automation
- Understands FluidSIM Pneumatics for pneumatic system simulation and circuit design.

Soft Skill

- Communication Skill
- Problem Solving Abilities
- Adaptable and eager to learn

About Me

A motivated third-year Computer Engineering student at Colegio De Muntinlupa, eager to enhance skills in web development, computer hardware and especially interested in manufacturing integrated circuits.

Education

Bachelor of Science in Computer Engineering

2021-2024

Colegio De Muntinlupa

Science, Technology, Engineering and Mathematics

2019-2021

Muntinlupa National High School Main

Projects

Arduino-based Pet Tracking Vest System

May 2024

- Design a schematic of the circuit using ESP32, GPS and GSM
- Manage to apply the basics of arduino code to get the location and sending message alert.

Automated Paint Production System

May 2024

Designed the pneumatic actuation system using FluidSIM.

QUIZ Application

December 2023

designed a quizlet application using C# windows app form.

Health Information Management System

May 2023

Manage to create a management system using PHP, html and CSS.

CERTIFICATE

- Introduction to IOT Training and Workshop
